Possible Financial Aid Scenarios for different levels:

- 1) Current Pharmacy Traditional P1, P2 and Pharmacy International Year 1 and 2 students will be awarded as a part of 2007-2008 academic year. Study abroad program will be their 2007-2008 summer semester.
- 2) Current Pharmacy Traditional P3 students who are starting their 4th year will be considered P4's and will be awarded their regular financial aid for 2008-2009 academic year. They can have a budget adjustment to P4 budget for study abroad expenses. It may not be as much as the full study abroad budget.
- 3) Current Pharmacy Traditional P4 students and current Pharmacy International 3rd year students will be graduating and will not be eligible for financial aid.
- 4) Current Post Baccalaureate students will be awarded as a part of 2008-2009 academic year. Their summer semester dates will coincide with study abroad program. If they are only taking study abroad for summer, this will be their budget. If they are also taking classes in addition to study abroad, their budget will be adjusted based on additional expenses.
