21682	PHA	7880	HPR	APPE: Elective II	Dr. Arce	4	M - F	8 am - 5 pm	Assigned APPE Site

Research Project Info: READ!

Research Project/Research Project Continuation is done concurrently with APPEs after completion of all didactic courses.
 Post Bacc students must maintain an active registration each semester for the Research Project/Research Project Continuation class.
 The first time a student registers for this course, he or she will register for PHA 7790 (Research Project – 4 credit hours).
 If the student receives a grade of PG (Progress) or NPR (No Progress), he or she is required to register for PHA 7790C (RP – Con, 1 credit hour) until the project is successfully completed. These options are only available in the Fall and Winter semesters.
 For more information see: [Research Project Information](#) on the Student Services web page.
 Any questions regarding Research Project should be directed to Dr. Blanca Ortiz blortiz@nova.edu
