PGY2 Ambulatory Care Residency

Program Purpose

The PGY2 Residency Program in Ambulatory Care at Nova Southeastern University College of Pharmacy (NSUCOP) is designed to produce a proficient ambulatory care pharmacist able to function independently and collaboratively with other health care providers to improve the overall care for individuals with chronic disease states. Residents will work closely with pharmacy faculty within the Accountable Care Organization Research Network, Services, and Education (ACORN SEED).

NSUCOP and their faculty sites provide the unique experiences in direct patient care, didactic and experiential education, development and implementation of research. This PGY2 program will prepare residents to practice in a mixture of pharmacist-led and interdisciplinary patient visits. Residents will have a strong teaching focus throughout the year. Graduates will be prepared to sit for the Board Certification exam in Ambulatory Care.

Residents will be prepared to assume positions as an assistant professor for a college of pharmacy or ambulatory care clinical specialist. Graduates of this program will be prepared for innovative models for healthcare reimbursement, create services in the outpatient setting, and become leaders in ambulatory care.

Clinical Rotations

Core Experiences

Orientation - *1 month*

Pharmacotherapy I (General Ambulatory Care)- *2 months*

Pharmacotherapy II (DM and TOC focus)- *2 months*

Outpatient Cardiology – *2 months*

Chronic Care Management Home Visits- *2 months*

Management and Leadership (*Longitudinal*)

Academia (*Longitudinal*)

Research (*Longitudinal*)

Elective Experience Options (*1 month*)

Academia (Administrative focus)

Adherence, Transitions of Care, Medication Therapy
Management (ATM) Call Center

Teaching Opportunities

Precepting Doctor of Pharmacy students

Facilitate patient-care management lab

Facilitate group discussions

Provide didactic lectures

Teaching Certificate Program (ITALICSRx)

Continuing education for faculty/healthcare providers

MEET THE PRECEPTORS

Tina Joseph, PharmD, BCACP
