VH PHARMACY INTRODUCES FREE CHILDREN'S VITAMIN PROGRAM

The program will be available to all children age 1-12 years old in the community

October 1, 2011 (Miami, FL) -- VH Pharmacy, the locally owned family run business continues to reach out and help out their immediate community. VH Pharmacy has provided prescription and patient care services for the past 40 years with the help of Pharmacist Eddy Blanco and brother, Danny Blanco. As they continue to reach out and give to their community, VH Pharmacy launches their newest and most expansive project yet, The Free Children's Vitamin Program. This program involves offering a free 30 day supply of chew-able multivitamins to children up to age 12 in the immediate community. No purchase is necessary and those who are of age will be able to receive the vitamins for up to one full year FREE.

"Most studies show that well over 50 percent of children in the U.S. do not receive the recommended daily allowance (RDA) of vitamins in their diet. But with this simple FREE multivitamin you can rest with the comfort that your child is protected, and in an optimum position to fight disease," says Pharmacist Eddy Blanco.

Maintaining a well-balanced diet full of the required daily vitamins allows us to receive the proper nutrients needed to stay healthy and disease free. Unfortunately, most children have poor eating habits and do not eat the many vegetables and fruits needed to maintain proper nutrition. In addition, eating healthy can be very cost prohibitive which has lead to a society that is dependant on fast food and quick, easy meals. Vitamins are really the best and easiest way to reverse this cycle.

"VH Pharmacy has always been dedicated to our local community and keeping children healthy is a top priority for us," said Danny Blanco, co-owner of VH Pharmacy. Studies have also shown that poor attendance is one of the many factors associated with the deterioration of education in America. We feel strongly that this program will help keep attendance at schools at an all time high. And in the case that a child or other member of the family may be sick and in need of medication, VH Pharmacy is also able to assist with any of their prescription needs. Their services even include free delivery of medications to your home or office in case transportation is an issue.

All you need to do is come in to the pharmacy in person and fill out an in-take form for administrative and tracking purposes only. VH Pharmacy is open Monday- Friday 8:30am-5pm and Saturday 8:30am- 2pm. For more information on VH Pharmacy and their Free Children's Vitamin Program visit 1000 SW 1st Street, Miami, Florida, or call (305) 324- 8777 or you can visit www.VHpharmacyRx.com.
