

“Your Brand - Your Profession”

Apha Webinar

Tuesday, February 26th 8pm

On February 26th at 8 pm EST, we will hear from Scott Kjelson, PharmD, CPh, about the current state of pharmacy and where we are heading as the profession continues to evolve. Join us for a deep dive into the branding of the profession, opportunities that exist, and what strengths and values the healthcare system is demanding from pharmacists! The concept of “*thinking outside the books*” is what Dr. Kjelson refers to when discussing his views on the development of pharmacists. This is a webinar that you do not want to miss!
