

As a dedicated supporter of the Pharmacists Provide Care campaign, you are helping our profession achieve “provider status” which will recognize pharmacists as valued members of the health care team, and allow us to use our unique skills and extensive education to enhance patient health. I wanted to provide you with this monthly update about the status of our collective efforts.

So far, more than **1200** of your fellow pharmacists have signed up for the Pharmacy Provide Care campaign. Our campaign is about you and

the future of your profession. It's about expanded professional opportunities, enhanced job security and the care you can provide to patients. The success of our campaign depends on the engagement of you and your fellow pharmacists. Please take a moment to encourage a fellow pharmacist to **sign up for the campaign**.

58 pharmacists from 24 states and the District of Columbia have filmed “Share Your Story” video testimonials about how they provide patient care, and what provider status will mean to them personally and professionally.

You can view the entire playlist of videos on the [APhA YouTube channel](#).

Is your state represented? If you would like to share YOUR story, please contact us via the [Pharmacists Provide Care webform](#).

H.R. 4190, the bipartisan legislation that amends Medicare to recognize pharmacists and pharmacists' services in medically

underserved communities, now has **40** co-sponsors in the U.S. House of Representatives. This rising tide of support is due in part to your efforts. Pharmacists Provider Care supporters have filmed 45 "Call to Action" appeals to legislators in 14 States. These videos will be shown to elected officials when APhA presses the case for provider status legislation on Capitol Hill.

You and your fellow pharmacists have sent **592** letters to Congress in support of provider status legislation. If you have not done so already, please visit our [Legislative Action Center](#) and make your voice heard to your elected officials.

The American Pharmacists Association is committed to helping pharmacists achieve provider status recognition. If you are not already a member, please consider joining [APhA today](#).
